

DESIGN BUILD FLY AT UCLA

NEW MEMBER

TRAINING

2023 - 2024

The DBF New Member Training (NMT) program is designed to teach you everything you need to know to be able to contribute to the club and participate in our design and manufacturing process. NMT consists of attending General/Design Meetings and Subteam-Specific NMT.

GENERAL/ DESIGN MEETINGS

General/Design Meetings take place every Monday from 6-8 pm in Boelter Hall 5440. These meetings typically consist of information about upcoming deadlines and events, updates from each subteam, and then open discussion about aircraft design.

Over the course of fall quarter, each subteam (with the exception of R&D) will run a subteam-specific new member training course, where the lead will go into the specifics of their subteam, teaching the skills needed to be a contributing member of the subteam. These training sessions will take place during the subteam's weekly meeting time. **New members are expected to attend all the NMT sessions of at least one subteam** (although it is recommended to attend sessions for all subteams that you are interested in joining).

SUBTEAM- SPECIFIC NMT

WEEKLY SCHEDULE

	Monday	Tuesday	Wednesday	Thursday	Friday
4 - 5 PM			Propulsion		R&D
5 - 6 PM					
6 - 7 PM	General / Design Meeting	CAD	Structures	Manufacturing	Aerodynamics
7 - 8 PM					
8 - 9 PM
